2026 – Fall Semester
Admission Guide

Welcome Message from Dean of the Graduate School, Kwangwoon University

Welcome to the Graduate School of Kwangwoon University, one of Korea's leading institutions in advanced education and research.

Kwangwoon University was established in 1934 by Dr. Kwangwoon Cho, a visionary who anticipated the age of electronics and information technology. With its strong roots in engineering and a spirit of diligence, frugality, and inquiry, the university has grown into a "smaller but stronger" institution at the forefront of the Fourth Industrial Revolution, driving innovation through the convergence of ICT, advanced science, humanities, and social sciences.

The Graduate School was founded in 1979 to nurture highly specialized, well-rounded professionals prepared for an AI-driven, information-centric future. Starting with just 36 students, we now support around 1,000 master's and doctoral candidates, including a significant number of international scholars, all committed to academic excellence and personal growth.

Today, we offer master's, doctoral, and integrated programs across 45 departments. Our curriculum fosters creativity and excellence, guided by a distinguished faculty who not only conduct cutting-edge research but also uphold the university's strong academic reputation. We continue to enhance our infrastructure through expanded scholarship opportunities, active industry-academia-research collaboration, and innovative educational programs.

Kwangwoon University warmly welcomes students from around the globe who bring with them dreams and passion. We are committed to guiding and supporting you as you grow into the next generation of global leaders.

HYUNCHOL SHIN, Ph.D.

Dean of the Graduate School, Kwangwoon University

"Ranked No. 1 for Two Consecutive Years (2024–2025) in Field-Weighted Citation Impact (FWCI) Based on the JoongAng Ilbo University Rankings."
